MAILSTOP: Missing Parts

Dear Sir:

Pursuant to the Notice to File Corrected Application Papers dated October 14, 2004, wherein a substitute specification with line spacing pursuant to 37 CFR 1.52(b) is required, please consider the following.

Section 22 of Title 35 USC expressly provides for electronic filing of documents. However, because the current rules of practice, Title 37 Code of Federal Regulations, are directed almost exclusively to paper submissions, the rules do not speak to electronic submissions. "To the extent that any existing USPTO rule is inconsistent with EFS, the rule will be interpreted in a manner to support EFS and will be waived, when necessary, until formal regulations directed to electronic submission are promulgated." See Electronic Filing System Available to Public, 1240 Off. Gaz. Pat. Office 45, Nov 14, 2000 and 37 CFR 1.183.

Further in the attached "Legal Framework for the Use of the Electronic Filing System, General Rule: Effect of Patent Regulations", copy enclosed for reference, it is stated: "For the purposes of submissions using the EFS, those regulations will be applied in a manner consistent with the electronic nature of the EFS submissions. submitted in compliance with the requirements expressed in the EFS documentation will not be held to be incompatible with the regulations solely because of their electronic nature or because they were submitted in electronic form."

The application herein was filed electronically using the USPTO provided EFS-ABX software, which generates the PDF document that is the eventual official document stored in the USPTO Image File Wrapper. Applicant has no control over the form of the PDF document created using the EFS-ABX software. Therefore, Applicant believes a substitute specification is not required.

A copy of the Notice to File Corrected Application Papers is submitted herewith.

The Commissioner is hereby authorized to charge any additional fees which may be required, or credit any overpayment to Deposit Account No. 08-2789.

Respectfully submitted
